

Supporting Pupils at School with Medical Conditions

Date Policy Adopted: Sept 2020

Review Date: Sept 2021

This policy should be read in conjunction with the Administering Medicines policy and, if applicable, the SEN Policy.

This policy is written in regard to section 100 of the Children and Families Act 2014 which places a duty on governing bodies to make arrangements for supporting pupils at their school with medical conditions.

Aims:

To ensure pupils at school with medical conditions, in terms of both physical and mental health, are properly supported so they can play a full and active role in school life, remain healthy and achieve their academic potential.

To ensure the needs of children with medical conditions are effectively supported in consultation with health and social care professionals, their parents and the pupils themselves.

Procedure

Responsible Person: Sam Aiston (Head teacher)
Nikki Venables (School Business Manager)

The persons named above are responsible for ensuring that whenever the school is notified that a pupil has a medical condition:

- sufficient staff are suitably trained
- all relevant staff are made aware of a child's condition cover arrangements in case of staff absence/turnover is always available
- supply teachers are briefed
- risk assessments for visits and activities out of the normal timetable are carried out
- individual healthcare plans are monitored (at least annually)
- transitional arrangements between schools are carried out
- if a child's needs change, the above measures are adjusted accordingly

Where children are joining Broseley Primary School at the start of a new academic year, these arrangements should be in place for the start of term. Where a child joins mid-term or a new diagnosis is given, arrangements should be in place as soon as possible, ideally within two weeks.

Any pupil with a medical condition requiring medication or support in school should have an individual healthcare plan which details the support that child needs. If the parents, healthcare professional and school agree that a healthcare plan is inappropriate or disproportionate, a record of the child's medical condition and any implications for the child will be kept in the school's medical record and the child's individual record.

Individual Health care Plans (IHPs)

The following information should be considered when writing an individual healthcare plan:

- The medical conditions, its triggers, signs, symptoms and treatments.
- The pupils resulting needs, including medication and other treatments, times, facilities, equipment, testing, dietary requirements and environmental issues.
- Specific support for the pupils educational, social and emotional needs
- The level of support needed including in emergencies
- Who will provide support, their training needs, expectation of their role, and confirmation of their proficiency and cover arrangements.
- Who in school needs to be aware of the child's condition and the support required
- Arrangements for written permission from parents and the head teacher for medication to be administered by a member of staff or self-administered (children who are competent should be encouraged to take responsibility for managing their own medicines and procedures, with an appropriate level of supervision?)
- Separate arrangements or procedures required for school trips or other school activities outside of normal school timetable that will ensure the child can participate
- Confidentiality
- What to do if a child refuses to take medicine or carry out a necessary procedure
- What to do in an emergency, who to contact and contingency arrangements
- Where a child has SEN but does not have an Education, Health and Care Plan, their special educational needs should be mentioned in their IHP.

Roles and Responsibilities

Supporting a child with a medical condition during school hours is not the sole responsibility of one person. The school will work collaboratively with any relevant person or agency to provide effective support for the child.

The Governing Body

- Must make arrangements to support pupils with medical conditions and ensure this policy is developed and implemented
- Must ensure sufficient staff receive suitable training and are competent to support children with medical conditions
- Must ensure the appropriate level of insurance is in place and appropriately reflects the level of risk

The Head teacher

- Should ensure all staff are aware of this policy and understand their role in its implementation
- Should ensure all staff who need to know are informed of a child's condition
- Should ensure sufficient numbers of staff have been trained to implement the policy and delivery IHPs, including in emergency and contingency situations, and they are appropriately insured
- Is responsible for the development of IHP
- Should contact The School nursing service in the case of any child with a medical condition who has not been brought to the attention of the school nurse.

School Staff

- Any staff member may be asked to provide support to pupils with medical conditions, including the administering of medicines, although they cannot be required to do so

- Should receive sufficient and suitable training and have the necessary level of competency before taking on the responsibility of supporting children with medical conditions
- Any staff member should know what to do and respond accordingly when they become aware that a pupils with a medical condition needs help.

School Nurses

- are responsible for notifying the school when a child has been identified as having a medical condition which will require support in school
- may support staff on implementing a child's IHP and provide advice and liaison

Other healthcare professionals

- should notify the school nurse when a child has been identified as having a medical condition that will require support at school
- may provide advice on developing healthcare plans
- Specialist local teams may be able to provide support for particular conditions (eg. Asthma, diabetes)

Pupils

- should, wherever possible, be fully involved in discussions about their medical support needs and contribute to, and comply with, their IHP

Parents

- must provide the school with sufficient and up-to-date information about their child's medical needs
- are the key partners and should be involved in the development and review of their child's IHP
- should carry out any action they have agreed to as part of the IHP implementation

Notes

The school does not have to accept a child identified as having a medical condition at times when it would be detrimental to the health of that child or others to do so. The following practice is considered not acceptable:

- Preventing children from easily accessing their medication and administering it when and where necessary.
- Assuming children with the same condition require the same treatment.
- Ignoring the views of the child, their parents; ignoring medical advice or opinion.
- Sending children with medical conditions home frequently or prevent them from staying for normal school activities (unless specified in IHP).
- Penalizing children for their attendance record if their absences are related to their medical condition that is recognized under this policy.
- preventing children from drinking, eating or taking toilet breaks whenever they need to in order to manage their medical condition effectively

Template F: contacting emergency services

Request an ambulance - dial 999, ask for an ambulance and be ready with the information below.

Speak clearly and slowly and be ready to repeat information if asked.

1. your telephone number
2. your name
3. your location as follows [insert school/setting address]
4. state what the postcode is – please note that postcodes for satellite navigation systems may differ from the postal code
5. provide the exact location of the patient within the school setting
6. provide the name of the child and a brief description of their symptoms
7. inform Ambulance Control of the best entrance to use and state that the crew will be met and taken to the patient
8. put a completed copy of this form by the phone

Template G: model letter inviting parents to contribute to individual healthcare plan development

Dear Parent

DEVELOPING AN INDIVIDUAL HEALTHCARE PLAN FOR YOUR CHILD

Thank you for informing us of your child's medical condition. I enclose a copy of the school's policy for supporting pupils at school with medical conditions for your information.

A central requirement of the policy is for an individual healthcare plan to be prepared, setting out what support the each pupil needs and how this will be provided. Individual healthcare plans are developed in partnership between the school, parents, pupils, and the relevant healthcare professional who can advise on your child's case. The aim is to ensure that we know how to support your child effectively and to provide clarity about what needs to be done, when and by whom. Although individual healthcare plans are likely to be helpful in the majority of cases, it is possible that not all children will require one. We will need to make judgements about how your child's medical condition impacts on their ability to participate fully in school life, and the level of detail within plans will depend on the complexity of their condition and the degree of support needed.

A meeting to start the process of developing your child's individual health care plan has been scheduled for xx/xx/xx. I hope that this is convenient for you and would be grateful if you could confirm whether you are able to attend. The meeting will involve [the following people]. Please let us know if you would like us to invite another medical practitioner, healthcare professional or specialist and provide any other evidence you would like us to consider at the meeting as soon as possible.

If you are unable to attend, it would be helpful if you could complete the attached individual healthcare plan template and return it, together with any relevant evidence, for consideration at the meeting. I [or another member of staff involved in plan development or pupil support] would be happy for you contact me [them] by email or to speak by phone if this would be helpful.

Yours sincerely
